

Reconstruction M-59/Crooks Road Interchange

March - November 2011

What is Being Done?

The Michigan Department of Transportation (MDOT) is investing approximately \$10 million to reconstruct the M-59/Crooks Road interchange between Austin Avenue and Star Batt Drive/Avon Industrial Drive in Rochester Hills. The project includes replacing the existing two-lane Crooks Road overpass above M-59 with a new four-lane structure; widening Crooks Road to five lanes between Austin Avenue and Star Batt Drive/Avon Industrial Drive; reconstructing existing ramps at the interchange; constructing new loop ramps from northbound Crooks Road to westbound M-59, and southbound Crooks Road to eastbound M-59; and adding pedestrian sidewalks on the overpass. The project begins in March and will be completed in November.

How Will Traffic Be Affected

March - July

- One lane of northbound and southbound Crooks Road will be open at all times with a center-turn lane north and south of the interchange.
- Two lanes will be maintained on eastbound and westbound M-59, except on nights and weekends.
- The westbound M-59 ramp to Crooks Road will be closed for one month. Motorists will exit at the Adams Road interchange and head east on Hamlin Road to Crooks Road.
- The Crooks Road ramp to eastbound M-59 will be closed for three weeks. Motorists will be detoured to the Adams Road interchange.
